Haseeb Hussain

Lahore, Pakistan | haseebofficial14@gmail.com | github.com/ranahaseeb14

Summary

Full-stack developer (MERN) seeking a junior developer or internship role. Built and deployed a role-based Helpdesk/Support Ticket System with authentication, ticket lifecycle tracking, and an admin dashboard. Currently pursuing BS Computer Science via intermediate improvement exams while actively shipping production-style projects.

Technical Skills

- **Frontend:** React, JavaScript (ES6+), HTML5, CSS3, Context API, Axios
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control (RBAC)
- **Database:** MongoDB, Mongoose, MongoDB Atlas
- **Tools/Deployment:** Git, GitHub, Vercel, Render, Postman, Cloudinary, Multer
- **Currently learning:** AI/ML fundamentals

Projects

Helpdesk & Support Ticket System | MERN, JWT, MongoDB Atlas, Vercel, Render Live Demo: https://helpdesk-support-ticket-system.vercel.app/ | Repo: https://github.com/ranahaseeb14/helpdesk-support-ticket-system

- Built a full-stack support ticketing platform with role-based access control (admin/agent/user), ticket status tracking, comment threads, and a metrics dashboard.
- Implemented centralized authentication with React Context API and an Axios interceptor to auto-handle expired sessions.
- Deployed frontend on Vercel, backend on Render, database on MongoDB Atlas — fully live, end-to-end.

ImageVault — Image Upload Application | Node.js, Express, Multer, Cloudinary, React Repo: https://github.com/ranahaseeb14/imagevault

- Built a full-stack image upload pipeline with client-side cropping and cloud storage integration.

Experience

Owner, Wholesale General Store | Lahore | ~1 year

- Manage daily billing, inventory, and supplier coordination for a live wholesale operation.
- Identified recurring billing inefficiencies, motivating a self-initiated plan to build a custom digital billing system (in progress).

Education

- Intermediate — Superior College, Sheikhupura (improvement exams in progress for BS Computer Science eligibility)

Certifications

- AI for Everyone — NAVTTC
